

MGB

- ▲ Established in Toulouse last December
- ▲ Made up of volunteer members of DLM Forum
- ▲ Many draft products
- ▲ The difficulty of completing work in the MGB has shown the need for a committed resource

MoReq2 testing — the future Questions to be answered: ✓ How will the testing framework documentation (about 2,000 pages) be maintained? ✓ Role assignments - who will perform the tasks?

MGB plans for translations

- We plan to validate translations if we can!
 - Preferably before they are published
 - ▶ If not, then after they are published
- We plan to publish all translations validated and not validated
- We plan to indicate which translations are validated and which are not validated

MoReq2 training ✓ Two 1-day dedicated events organised by AIIM in UK ✓ Roadshow of events organised in Germany and Austria by Project Consult

MoReq2 specifications: una sintesi commentata dei nuovi requisiti modello per la gestione di documenti elettronici.

Maria Guercio

Abstract: Maria Guercio proposes a synthesis of the MoReg2 specifications with comments related to the specific Italian requirements as defined by the national legislation and the professional tradition.

Maria Guercio propone una sintesi commentata delle specifiche MoReq 2. Le annotazioni e i commenti riguardano il rapporto tra le linee guida europee e la legislazione nazionale e la tradizione archivistica italiana.

Introduzione

Le specifiche MoReq2 elaborate dalla Commissione europea nel 2001 per la gestione dei documenti elettronici hanno conosciuto un notevole successo e sono state ampiamente utilizzate per lo sviluppo di sistemi applicativi in ambito documentario. Il livello e la quantità delle trasformazioni avvenute hanno tuttavia reso necessario, a distanza di 5-6 anni, un intervento di verifica e di aggiornamento che si è concluso nel dicembre 2007 con l'elaborazione di una nuova versione delle specifiche, denominate MoReq2. A differenza del modello precedente il nuovo progetto ha previsto verifiche di livello applicativo delle specifiche che sono state realmente sviluppate e pubblicate parallelamente ai requisiti modello, con la conseguenza di determinare una rivisitazione del progetto in termini di una ulteriore facilità di comprensione delle specifiche e di una rigorosa coerenza terminologica.

Oltre alla fase di verifica applicativa – che ha costituito una novità rispetto al passato – il proget ha previsto un capitolo introduttivo (il capitolo 0) dedicato alla descrizione delle pratiche nazi e alla necessità di integrare le specifiche generali con quelle legate alle tradizioni e alle no

SURREY CITY OF SURREY CITY OF SURREY PURCHASING SECTION 6645 – 148 Street, Surrey, B.C. V3S 3C7 Tel: 604-590-7274 Fax: 604-599-0956 E-Mail: purchasing@surrey.ca

ADDENDUM #2

REQUEST FOR PROPOSAL (RFP) No.: 1220-30-05-09

TITLE: InfoShare implementation

ADDENDUMISSUE DATE: March 10, 2009

REVISED CLOSING DATE: March 27, 2009 - 3:00 p.m. (Amended from March 20, 2009)

Question #11: Was there a specific reason why MoReq2 was used as the basic for the City's requirements?

Are there any allowances given for those vendors who are still working to meet MoReq2? Answer The City chose MoReg2 because it's a recognized framework that provided a complete set of requirements that closely matched those of the City of Surrey.

The City is looking for proponents who are MoReq-knowledgeable.

your requirements. In order to adequately respond to the nareu requirements, are you looking for a solution that is specifically MoReg2 compliant? How would solutions that are geared towards the US DOD5015.02 / MoReq1 standard fair in your evaluation?

Answer The City is seeking Proponents with a solid knowledge and support in their solutions for MoReq2. As per schedule C – please ensure that you meet the mandatory requirements at minimum

Question #2: In drafting the implementation plan, has functionality (as per Essential and Enhanced dentified on pages 8-22 of the proposal) been evaluated for priority?
